Singapore – 23 January 2017 – Frasers Centrepoint Asset Management (Commercial) Ltd (“FCAMCL” or the “Manager”), the manager of Frasers Commercial Trust (“FCOT”, SGX:Frasers Comm Tr), is pleased to announce that for the financial quarter ended 31 December 2016 (“1QFY17”), FCOT’s distributable income to Unitholders increased by 1.2% to S$19.9 million, as compared to the financial quarter ended 31 December 2015 (“1QFY16”). 1QFY17 DPU also held steady at 2.51 cents compared with a year ago, with no management fees taken in Units1. 1QFY17 DPU was approximately 2% higher compared to the DPU of 2.45 cents in the previous quarter ended 30 September 2016, where there were also no management fees taken in Units.

Mr Jack Lam, Chief Executive Officer of the Manager, said “We are pleased to have delivered stable growth in distributable income for FCOT despite the challenging and uncertain market conditions in Singapore and in the wider global economy as a whole. The stability and diversification of our portfolio has in particular been boosted by the acquisition of 357 Collins

Street in August 2015, which is enjoying full occupancy in a strong Melbourne market and has no leases expiring until FY18."

**Distributable income to Unitholders increased 1.2%**

Gross revenue of S$39.7 million for 1QFY17 remained steady as compared to 1QFY16. Net property income ("NPI") for 1QFY17 decreased marginally by 0.6% to S$29.2 million as compared to a year ago. NPI on cash basis, excluding the effects of recognising accounting income on a straight line basis over the lease terms, was S$29.3 million for 1QFY17, a 0.8% increase compared to a year ago. The overall stable performance of FCOT was supported by the better performance of 357 Collins Street as a result of higher occupancy and rental rates, coupled with the stronger Australian dollar. These were offset by the effects of lower occupancy rates at China Square Central and Central Park and higher marketing expenses for Central Park.

Construction works for the development of a 16 storey hotel ("Hotel") and the additions and alterations works ("Commercial Project") at China Square Central\(^2\) are in progress. The loss of income in 1QFY17 attributed to certain affected units\(^3\) will be supplemented by a capital distribution of S$0.9 million of the proceeds from the disposal of the Hotel development rights.

DPU remained steady year-on-year at 2.51 cents in 1QFY17, with no management fees taken in Units for the quarter. In 1QFY16, 23% of the Manager’s management fees for the quarter were taken in Units. The Manager will be applying the distribution reinvestment plan ("DRP") for the distribution for 1QFY17. The DRP provides Unitholders with the option to receive their distributions declared, either in the form of Units or cash, or a combination of both.

The distribution of 2.51 cents per Unit for 1QFY17 will be paid out on 1 March 2017. The distribution books closure date for the Units is 1 February 2017.

**Office tower of China Square Central achieved 100.0% committed occupancy**

As at 31 December 2016, the average occupancy rate for the Trust’s property portfolio was a healthy 93.0%. The average occupancy rates of the properties in Singapore and Australia were 92.3% and 93.8%, respectively.

The office tower of China Square Central achieved 100.0% committed occupancy as at 31 December 2016, while Caroline Chisholm Centre in Canberra and 357 Collins Street in Melbourne remained fully occupied.

The income-weighted average lease expiry ("WALE") of the portfolio was 3.8 years as at 31 December 2016\(^4\). Caroline Chisholm Centre continues to anchor the portfolio with its long WALE of 8.5 years.

In 1QFY17, tenant demand for space in the properties stemmed from diverse industries such as consultancy and business services, energy, food and beverage, IT products and services, legal, medical and real estate. Alexandra Technopark achieved a positive weighted average

rental reversion of 8.5%\(^5\) for four new and renewed leases totalling approximately 16,700 square feet that commenced in 1QFY17.

With the Manager’s proactive asset management approach, lease expiry by gross rental income for FY17 has been brought down to 15.3% of the portfolio as at the end of 1QFY17, from 21.8% as at the beginning of the financial year.

**Hotel construction at China Square Central on track**

Construction works for the development of a Hotel and Commercial Project at China Square Central are on track for completion by mid-2019. The Hotel is being developed by an entity of Frasers Centrepoint Limited and will be operated by Frasers Hospitality under the ‘Capri by Fraser’ brand. The Commercial Project at China Square Central will result in new retail and commercial spaces being created with better frontage and visibility. These developments are expected to rejuvenate and bring increased activity levels to China Square Central.

**Healthy gearing**

As at 31 December 2016, the Trust’s gearing was healthy at 36.0% and the weighted average debt maturity was 2.3 years. In 1QFY17, interest coverage ratio was 4.6 times and the average interest rate was 2.98% per annum.

The Trust would not have any debt maturing until September 2017. All debts are unsecured, which provides a high degree of financial flexibility to the Trust. In addition, approximately 85.0% of borrowings are on fixed rates, providing certainty in interest costs and limiting the Trust’s exposure to volatilities in the interest rate environment.

To manage its foreign currency exposure, the Trust hedges anticipated net Australian dollar denominated income approximately six to nine months forward.

**Looking forward**

Mr. Lam said, “Stable results for the first quarter has given us a good start to the financial year. However, we are aware that market conditions are overall anticipated to remain challenging for some time. We will continue to proactively manage the Trust and its property portfolio, with a view to enhancing defensiveness and income stability for Unitholders. We will also actively look at opportunities to improve and reposition the properties for them to stay competitive and enhance their marketability and long-term income potential.”
