CBRE reported that the island-wide office vacancy rate reduced marginally from 4.8% in 2Q 2019 to 4.5% in 3Q 2019.

Net absorption of 74,590 sf for 3Q 2019 was significantly lower compared to 508,443 sf in 2Q 2019, mainly due to economic uncertainties and cautious sentiment in the office market.

Tenant demand was mainly driven by the technology sector and co-working space operators.

According to CBRE, landlords of new developments nearing completion will be compelled to fill-up spaces and this is likely to cap rental growth in the next 6 to 12 months.
